Memorandum for the Daily Log

September 20, 1951

The matter of Addressograph's contention that its customers have been required to pay excessive taxes was discussed today with Mr. William Fox, Manufacturers' Excise Tax Unit, Bureau of Internal Revenue, Extension 2686. Mr. Fox did not feel he should advise this Agency whether or not it should sign Addressograph's claim for refund, but he did point out that numerous Government agencies have refused to sign the claim, while others have signed it.
